Discussion Paper Series/18 – Special issu

Regional responses to the Covid-19 crisis: a comparative study from economic, policy, and institutional perspectives

A joint Regional Financing Arrangement staff project

This study compares responses to the Covid-19 crisis across six regions covered by Regional Financing Arrangements (RFAs), outlining the pandemic's economic impact, policy measures implemented by authorities to limit its economic damage, and the institutional actions by the RFAs to support members through the initial stages of the crisis. It is the result of a joint effort by RFA staff and underscores the institutions' continuous efforts to cooperate closely through the sharing of crisis experiences.

Abstract:

This study compares responses to the Covid-19 crisis across six regions covered by Regional Financing Arrangements (RFAs), outlining the pandemic's economic impact, policy measures implemented by authorities to limit its economic damage, and the institutional actions by the RFAs to support members through the initial stages of the crisis. It is the result of a joint effort by RFA staff and underscores the institutions' continuous efforts to cooperate closely through the sharing of crisis experiences.
