On 24 November 2021, the European Commission published the twelfth enhanced surveillance report for Greece.

The report is based on the findings of a mission held in Athens on 19-20 October 2021 and regular dialogue with the authorities. The mission was conducted by the European Commission in liaison with the European Central Bank; the International Monetary Fund participated in the context of its Post Financing Assessment framework, while the European Stability Mechanism participated in the context of its Early Warning System and in line with the Memorandum of Understanding of 27 April 2018, on working relations between the European Commission and European Stability Mechanism.

The current report assesses the implementation of Greece's commitments to the Eurogroup regarding reform completion due up to mid-2021.
