An international jury has selected the winners of the architectural competition "Administrative building for European Stability Mechanism and Luxembourg State on the Kirchberg". In close coordination with the European Stability Mechanism (ESM), the competition was organised by the Ministère de la Mobilité et des Travaux Publics in Luxembourg (represented by the Administration des bâtiments publics).

Of the 23 candidatures submitted in the first phase of the competition, eight project teams – composed of architects and technical offices (including landscape

architecture offices) – were retained for the second phase of the competition. Of the eight retained project teams, three were not evaluated by the jury due to non-compliance with formal criteria.

The jury, headed by architect Prof. Christoph Gantenbein, met on 24 and 25 March 2022. After evaluation by the jury, the projects of the following project teams were awarded prizes:

1st prize:

Architectural office:

EM2N Architekten Zürich / Berlin

ROBERTNEUN Architekten GmbH

Engineering office for structural planning:

wh-p GmbH Consulting Engineers
