Guerzoni (European Commission); Carlos Giraldo, Iader Giraldo (FLAR).

Abstract:

This study provides an overview of steps taken by Regional Financing Arrangements (RFAs) to incorporate climate considerations into their activities, covering the areas of economic monitoring, lending, capacity building, and internal policies and operations. It aims to deepen the RFAs' understanding of how their regional peers are approaching the emerging policy issue of climate change, and to stimulate collective reflections on how best to support members' efforts to foster a more sustainable and resilient future.
