

COMPLIANCE NOTIFICATION

To whom it may concern

The **European Financial Stability Facility** (the EFSF) has been incorporated on 7 June 2010 as a **société anonyme** and is based in Luxembourg (**registration number B153414**). The mandate of the EFSF is to provide financial assistance to euro area Member States by issuing financial instruments. As of 1 July 2013, the EFSF can no longer engage in new financial assistance programmes or enter into new loan facility agreements, but it will continue to manage existing programmes and the repayment of any outstanding debt. To fulfil its ongoing activities, the EFSF entered into a service level agreement dated 1 January 2013 with the European Stability Mechanism (the ESM) based upon which the ESM provides the EFSF with all administrative, logistical and other support services, including resources. Consequently all daily operations of the EFSF are managed by the ESM and the ESM staff in line with the specific ESM guidelines, rules and procedures (where relevant and applicable).

The publicly accessible ESM/EFSF webpage contains all relevant information for the EFSF's business partners to conduct customer due diligence by displaying specific and detailed information relating to the EFSF governance structure, its decision-making and its annual accounts. In order to facilitate and accommodate numerous requests for information to conduct customer due diligence, and considering the unique position of the EFSF in respect of its governance structure and composition of its decision-making bodies, this specific compliance notification sets out the most important information as a replacement for the otherwise standard due diligence surveys.
